But now, everything that ventures out is brought to by the long gun of the tender.'

'That's a fact, Ben,' responded another seaman. 'She has taken or driven back into port no less than twenty-six craft in the last three weeks. He continued to watch the retiring tender or some moments in silence. 'It's a pity that we hadn't an armed cutter

ADAMS SENTINE CETTYSBURG:

MONDAY, JULY 5, 1858.

COUNTY CONVENTION.

At a meeting of the Union County Comnittee, held in Gettysburg, on Monday, June 28, it was unanimously

Resolved, That in accordance with the recommendation of the several State Com-mittees, we invite the Citizens of Adams County, who are opposed to the present National Administration, especially to its despotic and fraudulent Lecompton policy, and its willful neglect of the just claims of domestic industry, and who are in favor of the Sovereignty of the People over their tions as against the policy and intrigues of foreign Governments, and of adequate protection to our home labor; to meet at the usual places for holding Delegate Elections on Saturday the 31st day of July next, be tween the hours of 2 and 6 o'clock, P. M. VENTION, in Gettysburg, on Monday the 2d day of August next, at 10 o'clock, A M, to nominate a People's Ticket to be supported at the fall election, and to appoint Congressional Conferees, and tran sact such other business as may be necessary. By order of Executive Committee, CHAS. HORNER, Chairman. WM. F. WALTER, Sec'y.

The Chambersburg Repository, in savages of the North, and it is quite proba- its last number, reiterates its views on the ever intimated that Franklin county has the only man who can carry the district .-It says, bit never used language that will justify such a construction." We accept the explanation cheerfully. We thought its language did contain such an intimation, and we repelled it as absurd and insulting. The disavowal made by the Repository we ecord with pleasure.

But that paper has, from the beginning manifested an apparent purpose to ignore the claims and feelings of this County .-At first, it denied our right to name a condidate, and held that in 1856 we had waived whatever right we once had. Driven from that position, it has assumed sidered, but that the "very best man" should be chosen. This immediate change of position shows a pre-determined purpose. The test it now demands, it has been the business of the Conferees always to apply. The prominence now given to it by the Repository means one of two things; that the Conferees heretofore have not applied this test, or may not now. Either assertion is a reflection upon the fidelity and intelligence of the gentlemen involved.

Where a selection is to be made between several, all the facts must be considered not a fanciful, or exaggerated few. Hence, as an aid in just such cases as the present, the first Conference established the princinle of rotation, which has been obeyed to this time; which has not worked bodly, and will not; and whose violation is more likely to work disaster than its observance.-Three of the Counties have profited by its oneration. Two remain to do so. The fuure will disclose whether there is sufficient dishonor in the District to attempt to make the sacrifice foresbadowed. We know that and always are when a doubtful deed is to

Senatorial Delegate.

Our friends in Franklin county "are nformed, if they do not already know it," that Franklin having appointed a Senatorial Delegate to the last State Convention, the Union County Committee of Adams acquiesced in the appointment, and appointed Dr. FAHNESTOCK Representative Delegate. These appointments were made, if we mistake not, under the Union call of the members of the Legislature. The Republican State Committee having issued a separate call, the Republican Association at New Oxford appointed Representative and Senatorial Delegates, who claimed scats in the Joint Convention, and were admitted, as was the case from other Districts, in which double Delegates had been appointed. In this way, W. CROOKS, of Franklin, and J. R. Hersu, of Adams, were both admitted as Senatorial Delegates-the former representing the Union party of the District. and the latter the Republican Association of New Oxford.

Ber At the last Union County Convention, Gen. WM. F. WALTER was appointed Representative Delegate, and Dr. E. G. FAHNESTOCK Senatorial Delegate to the next State Convention-and we presume the claim of the latter will be recognized, under the circumstances.

Forney, in Friday's Press, takes a view of the political field of Pennsylvania, thus; Lesempton is at a fearful discount in Pennevivania. It will not pay one dime on the dollar. It is being rejected by all the shrewd politicians, even endorsed as it is by Congress. In nearly every Congress sional district in this State the Democrats are either trying to get rid of the whole record—to bury it out of sight—or else are bowing their Lecompton Representatives into private life. In the Bucks and Lehigh district, Henry Chapman's renomination is demanded as essential to the success of the party, owing to his independent resistance of the Kaness policy of a majority of Congress. In Chester and Delaware, the champion of popular sovereignty, John Hickman, is admitted to be the only Democrat that

others to assist me. Serious Calamity.-It has already been mentioned that the Yazoo (Miss.,) Pass had given way, and most of the plantations upon its banks overflowed and the crops completely destroyed. The loss is estimated at over \$1,000,000. The last Yazoo Citizen says:

The water has a fall of eight or ten feet, and is rushing down it with terrific rapidity, with such power and force as to fell trees in its course, throwing waves and form and spray high into the air, with a roaring akin to that of an approaching tempost. The damage to this country is almost incalculable. Judge Shelby estimates his loss at \$125,000. Mr. Boboestimates his loss at \$30,000. It will injure a majority of our planters, by destroying crops, stock, &c. If the river remains full it will flood the country along the Lower Pass.

Effects of the Floods on the Crops .-The St. Louis Democrat thinks that the danger of a material diminution of the grain crop of the west in consequence of the recent freshets and overflows is being much overrated. It says-

At Mobile, the Mobile Guards, Rifles and others, will do the honors, and the Greys will then strike for home.

The White Slaves of England .- The London Times says that young milliners and dress makers of that city are condemned to sixteen, seventeen or eighteen hours toil out of twenty-four in each day and night. Their work is carried on in crowded, unventilated rooms, where their frames are kept bent at their labor until their eves acho and their limbs refuse to perform their l duty. They have a short, painful life, and Shaftesbury said that many of these young women had been trained gently and tenderly, in delicate and happy homes, possessing all the virtues and tenderness that belong to the female sex, and rendered by those very characteristics more obedient, more unmurmuring, more slavishly subject to the authority and tyranny of those who are put over them. His lordship adds that and the street door, and then asks, 'Is the condition of such a young woman one whit better than the most wretched slave in the Southern States of America?

'Starvation' in Davenport, Iowa .-Some two hundred laborers, who are either out of employment or won't work, formed themselves into a procession in Davennort on Friday, and merched to the office of Mayor Cook, and to the residences of several of the wralthiest citizens, demanding work, and declaring that they must either have work, become a charge upon the connty, or starve. The mayor and others promised to do their best to devise some method for their relief. It is said that only the day previous a farmer applied for laborers in Davenport, and offered fifty cents a day and board, and some of these starving men refused to accept the offer.
